WAYS WE ENGAGED IN COMMUNITIES

EDUCATION

We created awareness and equipped key influencers with tools to combat trafficking by:

- Preaching in churches, educating people through fair trade product sales, and more
- Training police sex trafficking units, counselors, and other frontlines / social service workers
- Speaking at prayer breakfasts, in churches and schools, and other venues

PREVENTION

We addressed the root causes of abuse and exploitation to stop it before it happens by:

- Connecting with at-risk groups through trainings, Bible studies, and other forms of outreach
- Improving the foster care system by supporting foster care parents, social workers, and foster kids

MOBILIZATION

We raised up local leaders, partnered with others, and resourced our communities by:

- Hosting events such as Freedom Sunday, prayer vigils, and team meetings
- Launching and equipping student groups on college campuses
- Hosting fundraisers to financially support local abolitionist efforts and other non-profits

RESCUE

We reached out to those caught in slavery and the cycle of abuse to help them exit their bondage by:

- Distributing care kits to women working on the streets in known areas of sex trafficking
- Partnering with outreach ministries in strip clubs and prostitution hubs to provide appropriate care

RESTORATION

We worked to create new futures by bringing healing to individuals and communities through:

- Providing nutritional, spiritual, vocational, and other support to residents at Eden's Glory
- Running feeding programs for homeless individuals in downtown urban centers

OUR PARTNERSHIPS

The Set Free Movement seeks to create holistic freedom and end modern slavery through **community-based action** and **partnership** with others.

We believe that the brokenness in our community is what breeds human trafficking, exploitation, poverty, racism, and abuse. Therefore, restoring relationships and healing community must be the platform for our action. Working in partnership with **all sectors of society** is vital to this process.

GREECE

For the past five years, **Kali Long** has been bravely working on the frontlines in Athens to end modern slavery and serving the needs of refugees. In March, Kali made the difficult decision to resign as a VISA missionary and take a leave of absence from her role with the Set Free Movement. We are supporting Kali in this time of transition and are assessing our work in Greece with our partners. We desire to find ways to stay engaged. While the enemy can slow us down, there is no stopping the movement of God.

The **Galloway family** are continuing to work towards establishing a home for Roma girls to prevent them from being trafficked, in addition to overseeing agriculture projects and church plants. Recently, they announced they will be joined in Bulgaria this summer by **Stephanie Peaschek**, a missionary who will be assisting with the home and with missions groups.
